

Bringing Biblical Principles of Governance

Internationally-Recognized Scientist Defends Biblical Account of Resurrection

IN THIS ISSUE:

- **Dr. James Tour on TONIGHT'S WPN**

Greetings My Friend,

Dr. James Tour is an American nanotechnologist and chemist. He holds a triple appointment as Professor of Materials Science and NanoEngineering, Professor of Computer Science, as well as Professor of Chemistry at the prestigious Rice University in Houston.

(PERSONAL NOTE: Dr. Tour and his wonderful wife have been special friends to me ever since they began taking me into their home on our many trips from San Diego, when I took my late wife Carol to a world-renown Houston hospital while she was in her six-year battle with cancer, from 2007 to 2013. Their home became my second home as my wife was in MD Anderson Cancer Center.)

We first interviewed Dr. Tour on the World Prayer Network in late February in what turned out to be a spiritually moving moment. (In case you missed that interview about six weeks ago, you can [view it here.](#))

We interviewed him again today – on Easter, Resurrection Day – on the complete reliability of the Biblical accounts of the Resurrection. He is responding to the question: “Can the Bible’s account of the Resurrection be trusted?”

You will want not merely to listen to it. You will want to share it with your friends. [Click here.](#)

**Bringing biblical principles of governance to government leaders
...and to the people who elect them!**
